PROFESSIONAL SUMMARY

Fresh Graduate in Software Engineering from Foundation University Islamabad with hands-on experience in Python, Django, and Django REST Framework. Skilled in REST API development, JWT Authentication, Docker containerization, and CI/CD pipelines. Built and trained a deep learning CNN model for image classification as part of Final Year Project, integrated with Django backend and React Native mobile frontend. Completed backend internship at Postal Life Insurance Company. Successfully deployed a Pharmacy Management System currently in active use at a real medical store.

EXPERIENCE

Software Development Intern

Postal Life Insurance Company (PLIC), Islamabad | May 2024 - Jul 2024

- Developed CRUD operations using ASP.NET Core MVC for internal company systems
- Managed and queried SQL Server database for enterprise-level applications
- Collaborated with senior developers on real-world enterprise software

PROJECTS

AI Dairy-Lens — Final Year Project (Cattle Disease Detection)

Python, PyTorch, CNN, Django, React Native, Expo Go, NumPy, Pandas, Matplotlib

- Developed cross-platform mobile app using React Native and Expo Go for real-time disease prediction
- Designed CNN with 3 hidden layers, trained on 6,000+ images achieving 84% accuracy over 100 epochs
- Performed data preprocessing using NumPy and Pandas; visualized results with Matplotlib confusion matrix
- Integrated trained CNN model with Django REST backend for real-time predictions

Personal Portfolio Website — Live

React, Vite, Tailwind CSS, EmailJS | kifayatyounis.vercel.app

- Built and deployed a professional portfolio website using React, Vite, and Tailwind CSS
- Integrated EmailJS for direct contact form — messages delivered to Gmail without backend
- Deployed on Vercel with continuous deployment from GitHub

Pharmacy Management System — Deployed

Python, Django, Tkinter, SQLite, Bootstrap, JavaScript

- Deployed at Nawab Jassi Khan Medical Store, Rawalpindi — in active daily use
- Built medicine inventory CRUD, billing/POS system, and sales history tracking
- Implemented secure admin login to restrict access to authorized staff only

Blog REST API — Docker + CI/CD

Python, Django REST Framework, JWT, Docker, GitHub Actions, SQLite

- Built complete REST API with CRUD using ViewSets, Routers, and JWT Authentication
- Containerized application using Docker and docker-compose for consistent environments
- Implemented CI/CD pipeline using GitHub Actions — auto test and Docker build on every push
- Applied object-level permissions — only post owners can update or delete their content

TECHNICAL SKILLS

Languages

Python, JavaScript, HTML, CSS

Frameworks

Django, DRF, React, React Native

Deep Learning

CNN, PyTorch, Feature Extraction

Data Tools

NumPy, Pandas, Matplotlib

Databases

MySQL, SQLite, SQL Server

Auth & API

JWT, Token Auth, REST API

DevOps

Docker, CI/CD, GitHub Actions

Tools

Git, GitHub, Postman, Vercel

Other

Bootstrap, Tailwind, ASP.NET Core

EDUCATION

BS Software Engineering

Foundation University Islamabad

Jan 2022 - Jul 2026

ICS — Computer Science

Punjab Group of Colleges

Aug 2019 - Aug 2021

LANGUAGES

Urdu — Native

English — Intermediate

SOFT SKILLS

Problem Solving

Team Collaboration

Quick Learner

Attention to Detail

Self-Directed Learning
